# Memorandum

Memorandum Nr 605-67  
DATE: OCT 27 1967

TO : Chief, Supply Division

FROM : Chief, [REDACTED] 25X1A

25X1A  
SUBJECT: [REDACTED]

1. Cyclic inspection and function test of five (5) each (total quantity in Lot #1) revealed that Serial Nr 192 ran 13 hours and 5 minutes and stopped. Items were tested in accordance with SIP 4.7.

2. Unless total stock is critical, recommend this item be disposed of. Value is \$40.00. The remaining four (4) functioned satisfactorily but require obliterating compound to return them to CC-A. Unserviceable device will be retained in CC-D pending disposition instructions.
